Capital expenditures of \$167 million hit guidance of approximately \$165 million in 2017.

2018 Guidance

Capital expenditures are expected to be approximately \$170 million in 2018.

Use of Non-GAAP Measure

Pro-Forma and Adjusted EBITDA are presented herein and are non-GAAP measures. See our attached financials for a reconciliation of these non-GAAP measures to the nearest GAAP measure.

Pro-Forma EBITDA guidance is a forward-looking non-GAAP financial measure presented herein. Reconciliation to the most directly comparable GAAP financial measure is not provided because we are unable to provide such reconciliation without unreasonable effort. The inability to provide a reconciliation is due to the uncertainty and inherent difficulty regarding the occurrence, the financial impact and the periods with respect to recognition of future GAAP financial measures. We also believe that such a reconciliation would imply an inappropriate degree of precision. For the same reasons, we are unable to provide a reconciliation of Pro-Forma EBITDA to the nearest GAAP measure.

outside GCI's control. Additional information concerning factors that could cause actual results to differ materially from those in the forward-looking statements is contained in GCI's cautionary statement sections of Forms 10-K and 10-Q filed with the Securities and Exchange Commission.
