In February we

changed the attribution of the 3.125% exchangeable debt from Liberty Capital to Liberty Interactive and continue to make progress on the split-off with a shareholder vote set for April.”

NON-GAAP FINANCIAL MEASURES

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for each of Liberty's tracking stock groups and each of QVC (and certain of its subsidiaries), the eCommerce businesses, and Starz, LLC, together with a reconciliation to that group's or entity's operating income, as determined under GAAP. Liberty defines adjusted OIBDA as revenue less cost of sales, operating expenses, and selling, general and administrative expenses (excluding stock and other equity-based compensation) and excludes from that definition depreciation and amortization, restructuring and impairment charges and gains on legal settlements that are included in the measurement of operating income pursuant to GAAP. Further, this press release includes adjusted OIBDA margin which is also a non-GAAP financial measure. Liberty defines adjusted OIBDA margin as adjusted OIBDA divided by revenue.

Liberty believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

SCHEDULE 1

The following table provides a reconciliation of adjusted OIBDA for each of Liberty Interactive group, Liberty Starz group, and Liberty Capital group to that group's operating income calculated in accordance with GAAP for the three months ended December 31, 2009, March 31, 2010, June 30, 2010, September 30, 2010 and December 31, 2010, respectively.
