As of June 30, 2019, the total unrecognized compensation cost related to unvested Awards was approximately \$59 million. Such amount will be recognized in the Company's consolidated statements of operations over a weighted average period of approximately 2.0 years.

As of June 30, 2019, Qurate Retail reserved for issuance upon exercise of outstanding stock options approximately28.9 million shares of Series A Qurate Retail common stock and 1.8 million shares of Series B Qurate Retail common stock.

## (4) Instanting State (Casso) State Office on Share

Basic thandings (loss) per common share ("EPS") is computed by dividing net earnings (loss) by the weighted average number of common shares outstanding ("WASO") for the period. Diluted EPS presents the dilutive effect on a per share basis of potential common shares as if they had been converted at the beginning of the periods presented. Potentially dilutive shares are excluded from the computation of cta

Series A and Series B Liberty Ventures Common Stock

Excluded from diluted EPS for the six months ended June 30, 2018 were2 million potential common shares, because their inclusion would have been antidilutive. No potential common shares were excluded from diluted EPS for the three months ended June 30, 2018.

Remainder of 2019	\$ 196
2020	\$ 325
2021	\$ 193
2022	\$ 96
2023	\$ 80

Zulily's business model is highly challenged and based on current results it may not be able to realize its long-term forecast. The Company continues to monitor Zulily's current business performance versus the long-term forecast, among other relevant considerations, to determine if any impairments exist. With recent management succession, Zulily initiated a process to evaluate how its current business model and long-term business strategy may respond in this challenging retail environment, and is in the process of updating its long-term forecast, but there are no guarantees that such efforts will result in Zulily recovering the diminished operations. Future outlook declines in revenue, cash flows, or other factors could result in a sustained decrease in fair value that may result in a determination that an impairment adjustment is required, which could be material. Accordingly, the Company believes the reporting unit is at an elevated risk of impairment.

#### (7) Long-Term Debt

Debt is summarized as follows:

	Outstanding principal at	Carrying	value

Qurate Retail defines Adjusted OIBDA, a non-GAAP measure, as revenue less cost of sales, operating expenses, and selling, general and administrative expenses excluding all stock-based compensation and transaction related costs. Qurate Retail believes this measure is an important-indicator of the operational strength and performance of its businesses by identifying those items that are not directly a reflection of each business' performance or indicative of ongoing business trends. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. This measure of performance excludes depreciation and amortization, stock-based compensation, certain acquisition accounting adjustments, separately reported litigation settlements, transaction related costs (including restructuring, integpsineify osbrted litipp eported/ulg-gpsinei-s

Table of

with any agreement as to the terms of its withdrawal, it is possible that new terms may adversely affect QVC's operations and financial results in a number of ways, not all of which are currently readily apparent. The U.K. is scheduled to withdraw from the E.U. no later than October 31, 2019. The U.K. government's draft agreement on the withdrawal of the U.K. from the E.U. was defeated in the House of Commons on January 15, 2019. As a result, the final terms of the U.K.'s exit from the E.U. are, and will remain for the immediate future, unclear. The U.K. may leave the E.U. without any agreement as to the terms of its withdrawal or the future economic relationship between the U.K. and the E.U. It is also possible that the U.K. will withdraw its notification to leave the E.U. or that there will be a second referendum on Brexit.

QVC's cost of sales as a percentage of net revenue was 62.8% and 63.6% for the three and six months ended June 30, 2019, respectively, compared to 62.2% and 62.9% for the three and six months ended June 30, 2018, respectively. For the three and six months ended June 30, 2019, cost of sales as a percentage of revenue increased primarily due to an increase in product fulfillment costs at QxH.

QVC's operating expenses are principally comprised of commissions, order processing and customer service expenses, credit card processing fees and telecommunications expenses. Operating expenses decreased \$30 million or 14.4% and \$66 million or 15.6% for the three and six months ended June 30, 2019, respectively, compared to the same periods in the prior year. For the three months ended June 30, 2019, operating expenses decreased primarily due to a \$25 million decrease in commissions at QxH, a \$4 million decrease in personnel costs at QxH and a \$2 million decrease due to favorable exchange rates. For the six months ended June 30, 2019, operating expenses decreased primarily due to a \$53 million decrease in commissions at QxH, a \$8 million decrease in personnel costs at QxH and a \$5 million decrease due to favorable exchange rates. The decrease in commissions for both comparable periods is primarily due to new longer term television distribution rights agreements entered into at HSN, which led to increased capitalization of television distribution rights agreements and favorable terms on commissions.

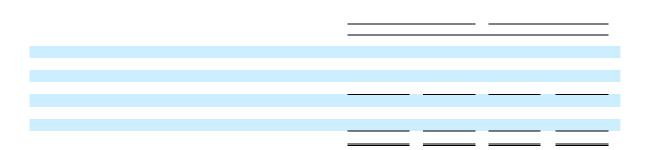

QVC's SG&A expenses (excluding stock-based compensation and transaction related costs) include personnel, information technology, provision for doubtful accounts, production costs, and marketing and advertising expenses. Such expenses decreased \$1 million and increased \$3 million for the three and six months ended June 30, 2019, respectively, as compared to the same periods in the prior year, and as a percentage of net revenue, increased from 10.1% to 10.2% and from 10.0% to 10.3% for the three and six months ended June 30, 2019, respectively, as compared to the three and six months ended June 30, 2018, respectively. For the three months ended June 30, 2019, the decrease was primarily due to a \$7 million decrease in personnel costs primarily at QxH. France and the U.K., offset by increases in Japan, and a \$4 million increase in outside services primarily at QxH. For the six months ended June 30, 2019, the increase was primarily due to a \$5 million increase in outside services primarily at QxH. For the six months ended June 30, 2019, the increase in bad debt expense, and a \$5 million increase in online marketing expenses primarily at QxH, a \$10 million increase in bad debt expense, and a \$9 million increase in outside services primarily at QxH, a \$10 million decrease due to favorable exchange rates. The decrease were partially offset by a \$13 million decrease may primarily at QxH. These increases were partially offset by a \$13 million decrease in personnel costs primarily at QXH, a \$10 million increase in personnel costs primarily in QxH, France and the U.K., offset by increases in Japan and Germany, and a \$9 million decrease due to favorable exchange rates. The increase in bad debt expense for both comparable periods is primarily due to increased Easy Pay usage and the number of installments taken at QxH, and to a lesser extent, Germany.

Stock-based compensation includes compensation related to options and restricted stock units granted to certain officers and employees. QVC recorded \$11 million and \$20 million of stock-based compensation expense for the three and six months ended June 30, 2019, respectively, and recorded \$12 million and \$24 million of stock-based compensation expense for the three and six months ended June 30, 2018, respectively. The decrease in stock compensation expense is primarily due to forfeitures of non-vested options from terminated individuals.

I-38

are effective. Our remediation efforts are underway, and we expect that the remediation of these material weaknesses will be completed prior to the end of 2019.

Additionally, the Company will continue to enhance the ITGC and U.K. revenue risk assessment process, evaluate talent and address identified gaps, deliver training on internal control over financial reporting, and monitor information system access and program changes to determine whether additional adjustments should be made to reduce or eliminate the occurrence of access and program change management issues.
